

Empathy Map

Date	02 October 2026
Team ID	SWTID-2026-7991
Project Name	EduGenie: Google Gemini Powered Learning Assistant
Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS "I want simple explanations." "I need quick answers for my doubts." "I want to revise and practice easily."	THINKS "Can AI explain this clearly?" "I need reliable answers and useful guidance." "I want a structured way to learn."
STUDENT LEARNER (User Type)	
DOES - Asks questions about academic topics. - Uses summaries for quick revision. - Takes quizzes and follows learning paths.	FEELS - Confused when concepts are difficult. - More confident after clear explanations. - Motivated when learning is personalized.
